

Terminal markers – Quick marking system AS 3/10

Quick marking system AS 3/10

The **AS 3/10** are suitable for labelling all terminal blocks, end stops or marker holders wider than 5 mm.

The compact shape and one-character inscription allow the printed standard tags to be put together in any combination. Two or four tags (depending on the terminal block or end stop) can be attached to a single terminal. The markers can be attached to the **SchT** marker holder so that they are read vertically with from three to twelve characters.

Material: Polyamide 6.6 UL 94-V2, halogen-free

AS 3/10 strips
