

VCZZ1000/U

Replacement cartridge for VC series 2-way valves with quick open flow

Overview

The cartridges used in VC-Series valves determine the Cv(kv) rating and flow of a valve body and can be replaced to match original factory specifications. 1000-series cartridges fit all 2-way VC bodies. 6000-series cartridges fit all 3-way VC bodies.

Features

- Use VCZZ1XXX with two-way valves.
- Use VCZZ6XXX with three-way valves.
- Quick and easy replacement of moving parts.
- Restores valve to factory-new conditions.
- Using different cartridge changes Cv and flow characteristic of body.
- Identical cartridge can have different Cv in bodies of different sizes.

Product Specifications

Dimensions (in.)	1 1/2 in. diameter x 2 9/16 in. high
Dimensions (mm)	37 mm diameter x 65 mm high
Includes	Two-way VC Valves
Comments	All On-Off VC series actuators
Valve Type	Replacement cartridge for VC series
Controlled Fluid	Water w/max of 60% Glycol. Not for use with Steam
Materials (Stem)	Stainless Steel
Materials (Cartridge)	EPDM, Ryton & Noryl plastic
Flow Characteristic	Quick Opening
Stem Travel (in.)	0.4 in.
