

The TrueUV™ Ultraviolet Treatment System takes Honeywell's famous installation ease to a new level. You'll have more installation flexibility than ever before, because the remote mounting option lets a TrueUV system fit more applications — package units, closets and roof-top units. Plus, angled mounting brackets allow for an easy fit in tight spaces. Internal, exterior, remote, angle, low profile — you can install TrueUV systems in homes where you previously couldn't, giving you more sales opportunities. Simply put, you can stock your truck with Honeywell TrueUV systems and know you're covered for just about every situation.

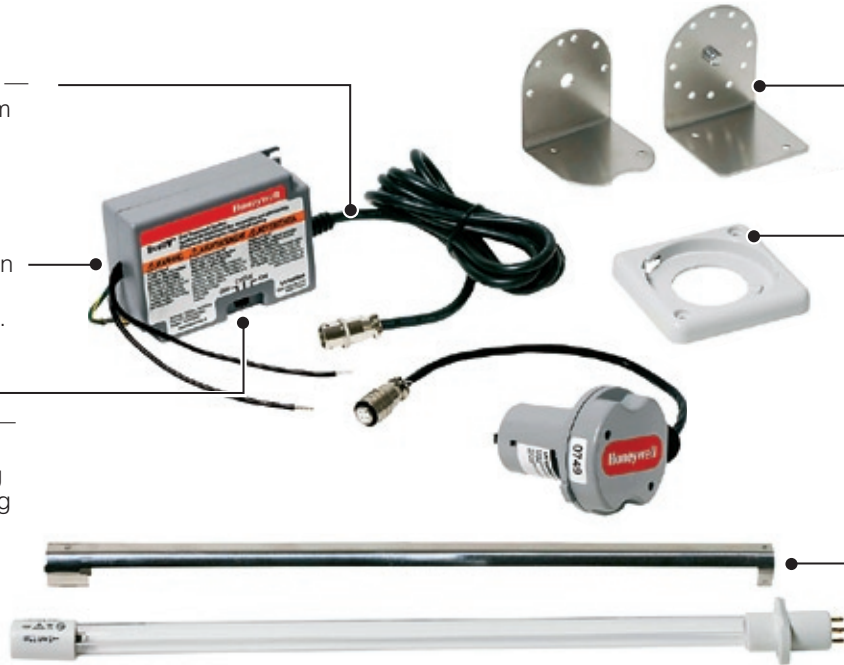

TrueUV™ Ultraviolet Treatment System

Remote Mounting Option — lets you fit applications from outdoor package units to closets to rooftops.

24 Vac — no need to call an electrician to finish the job, saving you installation time.

Patented Cycling And SnapLamp™ Technology — extends bulb life up to two years and makes replacing bulbs literally a snap, giving you a quick source of recurring revenue.

Eco-Friendly — TrueUV does not produce ozone.

Angled Mounting Brackets — easy fit in tight spaces.

Easy Installation — interior or exterior mount.

Highly Effective — Honeywell UV systems eliminate up to 99.9 percent of mold spores* on the coil, helping to maintain system efficiency and airflow.

Indicator Window And UVC Shield — a TrueUV exclusive that ensures safe viewing of bulb operation.

For increased installation flexibility, and to ensure optimal product performance, Honeywell recommends using a transformer (AT140) to supplement the existing power source.

TrueUV UV100RMI	
Lamp Wattage	10 W
Surface Mold Reduction*	99%
Air Treatment	-
SnapLamp Handle/Bulb Assembly	N/A
SnapLamp Replacement Bulb	UC10RM1
Electrical Rating	24 Vac, 750 mA
SmartLamp Technology	
Cycling for extended bulb life	Yes
Brownout high temperature protection	No
Communicates with VisionPRO IAQ	No

* Test performed in a test duct showed a 3-log (99.9 percent) reduction in colony-forming *Aspergillus niger* mold spores when surface was irradiated at a distance of 18" for three hours in still air, using new lamps.

Residential Transformers				
Electrical Rating	Input Voltage	Output Voltage	Product Number	Mounting
40 VA	120 Vac	24 Vac	AT140B1206	Foot
	120/208/240 Vac	24 Vac	AT140A1018	Conduit, Foot, Pilate and Channel Frame
